UVGI+ stops viruses before they spread

UVGI + spraying = UVGI+

The machine is developed using UltraViolet Germicidal Irradiation (UVGI), which kills airborne viruses without human risks, and an automatic disinfectant spraying system.

The Micothon UVGI+ is perfectly suitable for treatment of school facilities, medical centers, public transport, offices, hotels, waiting rooms, shopping malls and all kinds of public spaces. [read more](#)

Beurzen 2020

We would have liked to meet you at one of the trade fairs we were planning to take part in this year. However, major events have been cancelled to prevent the spread of the coronavirus, which means that our trade fair diary has been cleared for 2020. Of course, we hope to meet you again at one of our trade fairs in 2021.

Featured products:

Virto2

Virto2 is the successor to the eye-catching Virto and Virto S models, but is more robust, stronger and more durable than its predecessor. In Europe, the Virto is approved for driving on public roads, but it is equally suitable as a logistics solution in large complexes. [Read more](#)

M-Flex

The M-Flex is a fully autonomous vehicle that increases productivity with smart technology. The unique navigation method means that using the M-Flex does not require any modifications of the environment. It is even possible to use the M-Flex in a constantly changing environment. [Read more](#)

Qugo Runner

Whether you are looking for a compact and sustainable mobility solution for swift and pleasant commuting to work or whether you want to enhance your mobility at work, the Qugo Runner is your personal mobility partner. The Runner is street legal in most European countries and feels perfectly at home on industrial sites due to its agility, compact dimensions and quiet ride. [Read more](#)

COVID-19

Various national and international measures and restrictions have been put in place to prevent the spread of the coronavirus (COVID-19). The situation is affecting us all, both at work and at home. We at M-Products have taken every precaution to ensure the continuity of our services.

Stock & Delivery

The delivery times for our products remain unchanged. As well as the production of our custom products, we are also stepping up production so that we can deliver more from stock. Our logistics partners also remain operational.
